## Elite Sessions

The Elite Sessions are for seniors who want to have a wide variety of images. All of these sessions allow you as many casual outfits as time permits. We suggest one traditional outfit and several that match your style and personality. See our tips for clothing and planning at [gambrellseniors.com](http://gambrellseniors.com). These sessions also include your tux/drape for the yearbook.

All elite sessions are prepaid and any changes must be made more than 48 hours before your session. For any questions please call us at 478-237-8853.

We will choose from our entire collection of over a 100 backgrounds to match your outfits. Different and unique styles of lighting and effects are included in these sessions. Bring all your sports gear, uniforms, hobbies, and anything that makes you unique for some very personal images. The minimum order is also due on the date of your session.

A few days after the session, you and your parents will be treated to a personalized show of your images in our theater room. At that time you place your order. We offer a variety of products with packages and collections to meet everyone's needs. Digital images are included in some packages.

## How many outfit changes do I get?

Our photo shoots are time based, not outfit based. So if you book a 1 ½ hour session, you get as many poses and outfits as we can fit into 1 ½ hours. So the faster you change and work, the more variety you get. On average, most people get about 5 clothing changes per 1 ½ hour. If you're fast, a little more, if you are slow or have an idea that takes a little time to set up, a little less. So bring lots to pick from and we will help you narrow it down. If you choose a Sporty, Designer or Fashion session, be sure to include all your activities by bringing all your gear. Don't forget the football pads, guitars, hunting gear, bats and balls, clubs, soccer stuff, gloves, books, dancing shoes, rackets, awards and lightsabers.

## I'm not sure what to do or how to pose, will someone help me?

Yes! Allen knows what angles work best for different body shapes. The wrong pose can add a size on to you (yikes!), the right pose can take a size off. So we will coach you on the best ways to stand and position your body to look your best.
